DETAILED ACTION

Examiner's Reasons for Allowance

Claims 1-13 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance:

As to claim 1, the prior art of record, taken alone or in combination, fails to disclose or render obvious a method for the optical detection of an illuminated specimen in a plurality of detection channels comprising sensing light on a detector with multiple detection channels with an illumination light scan pass so that repeated scanning is dispensed with, and selecting the detection channel to be detected with respect to its mode of operation when a limiting value is reached during the illumination light scan pass, in combination with the rest of the limitations of claim 1.

As to claim 12, the prior art of record, taken alone or in combination, fails to disclose or render obvious a method for controlling light to a laser scanning microscope comprising determining which of a plurality of detection channels have light intensity above a set threshold present wherein only a scan pass is required so that the specimen is not overloaded with light and repeated scanning is dispensed with, in combination with the rest of the limitations of claim 12.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
